
CFP: A Special Session in RSKT2013 (JRS2013): Three-way Decisions and Probabilistic Rough Sets

October 11-14 2013 Halifax - Canada

The Eighth International Conference on Rough Sets and Knowledge Technology RSKT2013 will be held in Halifax, Canada, Oct 11-14, 2013.

Website: <http://cs.smu.ca/jrs2013/index.html>.

You are welcome to submit a paper to a special session in RSKT2013 titled “**Three-way Decisions and Probabilistic Rough Sets**”. The details of the special session are described as follows.

Special Session on **Three-way Decisions and Probabilistic Rough Sets**

Brief Description

Decision-theoretic rough set model is a typical probabilistic rough set model. As several special sessions on Decision-theoretic Rough Set Model and Applications have been successfully held in RSKT2009, RSKT2010, RSKT2011, ICCI2010, CRSSC2010, CRSSC2011 and RSKT2012, the special session on Three-way Decisions and Probabilistic Rough Sets in the Eighth International Conference on Rough Sets and Knowledge Technology (RSKT2013) keeps on inviting the submission of original and unpublished research papers. This special session aims to bring together researchers and practitioners in the field of probabilistic rough sets, decision-theoretic rough set model, three-way decisions and its applications.

Three-way decisions method with probabilistic rough sets provide a meaningful semantics interpretation of the three regions in the rough set theory. A broad scope of research on the three-way decisions and probabilistic rough sets will contribute to a better understanding of the essentials of rough set theory and effective applications in decision theory. In recent work, the three-way decisions and probabilistic rough sets have been successfully used for decision analysis, decision making, cluster analysis, information filtering, Web-based support systems, attribute reduction, multi-criteria classification and multi-view decision models. The Special Session will encourage all research work related to the three-way decisions method and probabilistic rough sets theory and applications.

Scope and Topics

Topics of this session focus on the following fields (but not limited to):

- Theoretical foundations of probabilistic rough sets
- Theoretical foundations of decision-theoretic rough sets
- Theoretical foundations of three-way decisions
- Bayesian rough sets
- Game-theoretic Rough Sets
- Risk analysis in probabilistic rough sets
- Cost sensitive learning based on probabilistic rough sets
- Reduct theory and probabilistic rough sets
- Decision support systems (DSS) based on probabilistic rough sets
- Rule induction based on three-way decisions and probabilistic rough sets
- Data mining based on three-way decisions and probabilistic rough sets
- Probabilistic rough sets in incomplete information systems
- Decision-making based on three-way decisions and probabilistic rough sets
- Approximation reasoning based on probabilistic rough sets
- Applications of probabilistic rough set model
- Applications of three-way decisions
- Applications of three-way decisions with probabilistic rough set model

Important Dates

Submission of full papers	May 10, 2013
Notification of acceptance	June 20, 2013
Camera-ready paper	July 15, 2013
Conference dates	October 11-14, 2013

Instructions for Authors

All submitted papers will be reviewed on the basis of technical quality, relevance, significance, and clarity. Normal length papers should be between 8 and 10 pages, formatted in Springer's single column format, including figures, tables and references. Springer-Verlag author instructions are available at:

<http://www.springer.com/computer/lncs?SGWID=0-164-7-72376-0>

Selected papers will be extended and published in several special issues of SCI indexed journals after conference.

The same electronic copy must also be submitted to: yuhong@cqupt.edu.cn.

Please specify that the paper is for the **Three-way Decisions and Probabilistic Rough Sets**, and submit your paper in PDF format by **May 10**, 2013 via our electronic paper submission system. The URL for paper submission system is: <https://www.easychair.org/account/signin.cgi?conf=jrs2013>

For more information please contact: **Dr. Hong Yu** at yuhongcq@yahoo.com.cn, **Dr. Bing Zhou** at bxz003@shsu.edu, **Dr. Dun Liu** at newton83@163.com, **Dr. Fan Min** at minfanphd@163.com, **Dr. Xiuyi Jia** at jiaxy@mail.njust.edu.cn, and **Dr. Huaxiong Li** at huaxiongli@nju.edu.cn.
